

Tanner Alix

Professor Hendricks

Senior Seminar

16th February 2023

Peer Review

Project: <https://github.com/CIDS-484-Spring-2023/Academy-Award-Database>

Grading: 4/9

Quality of Work: 1 Point

I understand what the person is going to do but I am unable to access their code or view it in any way (I don't see any in GitHub but a zip file without any code). I think the idea of what the project was is a really good start and gives plenty of information of what you want to do.

Intellectual Merit: 3 Points

The project looks like it will be really fun, and it will be a challenge to put together.

Video: 0 Points

I don't see a video that was made for this project, and I don't know where to find it. With the video it would make it more clear on what your whole plan was going to be but I don't have a video to view.
